Business Challenges

The client, Yazaki Corporation, needed a solution that will enable the company to have a complete and consistent planning process across its different business units. It also needed a solution to help it manage multiple sets of numbers and metrics and gain an accurate forecast for supply beyond a 6-month horizon.

Solution

With Intrigo's expertise in planning and execution, it leveraged on its IBP S&OP solution powered by SAP to provide one set of metrics for the whole group of companies. With the solution, it also helped Yazaki Corporation identify potential supply constraints based on predefined KPIs.

With its supply chain expertise, Intrigo also helped Yazaki Corporation simulate the impact of demand fluctuations and supply constraints and manage a consistent 18-month forecast supply forecast.

Key Benefits

With the solution, Intrigo helped the Yazaki Corporation reap the following benefits:

Improved decision making for planning scenarios

Reduced freight expediting cost

Increased operational efficiency and visibility across the supply chain

Improved organizational alignment, communication and trust

Changed the organizational culture to a demand & supply driven model

Enhanced the ability to link mid and long term planning

About Intrigo

We empower enterprises for the future.

Intrigo Systems, Inc. is a part of Accenture and an SAP Channel Partner. It is a leading provider of advisory, implementation, and support services. We provide business applications focused on orchestrating customer value networks in the changing SAP Enterprise technology landscape. Intrigo has also helped SAP design Advance Planning & Optimization (APO) and implemented some of the largest successful environments.
