

Time to value realization in 12 weeks

For a Notable Building Materials Manufacturer

Johns Manville (JM) is a widely known name in the roofing and insulation industry. Headquartered in Denver, Colorado, JM has juxtaposed innovation and sustainability in manufacturing residential and commercial insulation, commercial roofing, mechanical insulation and materials and engineered products (for other manufacturers' products and applications) since 1858.

Business Challenges

- Even with a mature planning process, results at the product level did not provide enough flexibility to align with the numbers at an aggregated product family level
- With a seasonal business, distribution planning and customer fulfillment impacted without the right supply information
- Inability to arrive at a single version of the truth due to multiple systems and spreadsheets for different aspects of the business
- Ability to view financial impacts and what-if scenarios not available in status quo

The Resolution

- Leveraged Intrigo's IBP S&OP solution powered by SAP

Intrigo Advantage and Key Benefits

- Multiple implementations of SAP's Integrated Business Planning (IBP) platform across a wide array of industries has given Intrigo the functional and technical expertise to effectively apply the solution's capabilities to Johns Manville requirements for S&OP
- Intrigo's relationship with SAP IBP product development also brought in some advantage in getting new features in SAP IBP
- Intrigo's pre-built accelerators and iterative design approach with multiple-user validation cycles resulted in a 12 week implementation

About Intrigo

We empower enterprises for the future.

Intrigo Systems, Inc. is a premier SAP Partner and a leading provider of Advisory, Implementation, and Managed Services. Intrigo has partnered with SAP in the design of their Advanced Planning and Optimization (APO), Integrated Business Planning (IBP), and Supply Chain Collaboration (SCC) environments. We are focused on delivering customer value in the dynamic SAP Enterprise technology landscape.
